WARREN, MI 48088-1531

Membership is for individuals only
and is non-transferable

WHAT IS THE MICHIGAN BACKFLOW PREVENTION ASSOCIATION?

The Michigan Backflow Prevention Association is an organization whose members have a common interest in protecting drinking water from contamination through cross connections. MBPA is an organization dedicated to education and technical assistance. Local needs and interests are supported through the **Michigan Backflow Prevention Association** and its network of members.

WHO BELONGS TO THE MICHIGAN BACKFLOW PREVENTION ASSOCIATION?

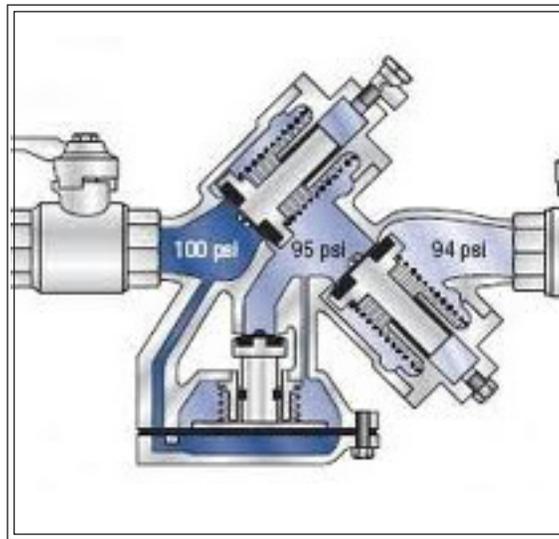

Membership is open to anyone with an interest in cross connection control and maintaining water quality standards. MBPA is for the professional who seeks continuing knowledge and up-to-date information in this constantly changing field. MBPA is composed of experts in cross connection control and those just entering this dynamic field. All levels of professionals can belong to and benefit from MBPA. From legislators who write law, to the federal, state, and local authorities who enforce the laws; from educators who provide training into the field; from engineers and architects who design the systems, to the manufacturers who produce the equipment used in the systems.

WHAT CAN THE MBPA DO FOR ME?

Besides the obvious benefits of meeting other professional with common interests, as a member of the **Michigan Backflow Prevention Association** you'll receive:

• EDUCATION/PROFESSIONAL CONFERENCES

Local seminars and training sessions are being planned. We are working closely with the Michigan Department of Environmental Quality and the Bureau of Construction Codes to enable our membership to receive CEU's for attending and participating in our seminars, conferences and training sessions.

This will also aid the Governmental/Regulatory community in their endeavors to satisfy their required educational needs. We are also going to provide educational assistance for Water Distribution Operator Certification.

Professional conferences directed towards the membership where the latest regulatory updates are available would be of immense value to municipalities and their employees. The newest product information, introduced to you by the people who manufacture these items, the manufacture will keep you informed in this fast paced industry that is every changing. Conferences that will be accredited and assist you with your employment and certification requirements will be invaluable as well as another resource you can take advantage of.

• TECHNICAL ASSISTANCE

Technical assistance with your cross connection control program is available. Job related problems can also be solved using the resources available to you.

• A FORUM

A forum for the discussion of problems within our profession and a network of other professionals available and willing to assist you when the need arises.

MEMBERSHIP IN MBPA

You will have an opportunity to serve on, or benefit from, committees that are working to solve problems and address important cross connection control issues. Full voting privileges and an opportunity to serve as an association leader, gaining international recognition for your work in the field of cross connection control, are available to you as a member of the **Michigan Backflow Prevention Association**.

No matter how tough your cross connection problems are, you can count on the **Michigan Backflow Prevention Association** members for help and assistance when the occasion requires it! Take advantage of the benefits the MBPA has to offer. Once you receive your copy of the ABPA NEWS you will agree it was worth the effort.

HOW CAN I BECOME A MEMBER OF THIS EXCITING ORGANIZATION?

Fill out the application and mail it to the address provided along with your payment. We take care of the rest.
